EL HACEDOR
BODEGAS

BODEGAS EL HACEDOR was born from the passion of our team for the world of wine, to create unique wines of the highest quality, differentiated and sustainable, backed by a professional team with more than **25 years of experience**.

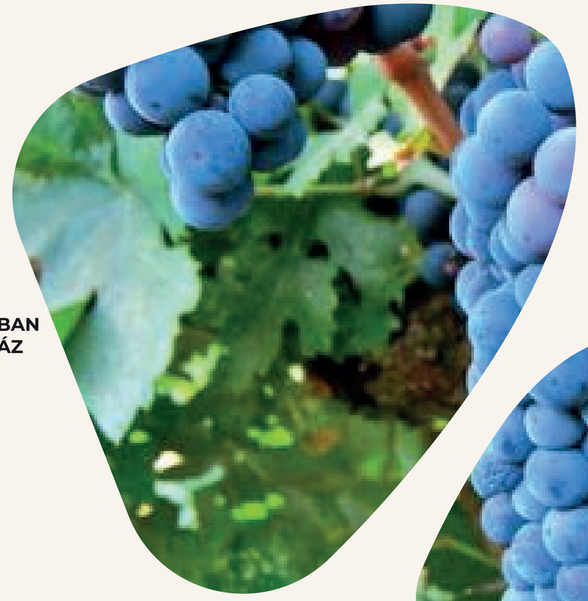
Welcome

The name **EL HACEDOR** (The Maker) reflects our philosophy of life.
We are **MAKERS (We make things happen).**
We are **CREATORS.**
We like to do things and do them well for a long time...

EL HACEDOR
BODEGAS

The origin is our grape, which gives the wines from **BODEGAS EL HACEDOR** it´s unique personality and consistent premium quality. Our vineyards spread out through the entire **Ribera del Duero DOP**, allowing us to take advantage of the richness, diversity, and different evolution of our vineyards.

The origin



DOP Ribera del Duero

EL HACEDOR
BODEGAS

We have 45 hectares of vineyards between **860 and 960 meters** of altitude from more than 25 carefully selected parcels in different soils and orientations throughout **Ribera del Duero DOP**.

Our grape

We have **TEMPRANILLO grapes** from century-old bush-vine, carefully selected high altitude trellised vineyards, parcels with perfect climate and soils for our **MERLOT grapes** and **TEMPRANILLO ORGANIC grapes** vineyard for our wines with organic certification.

We also have 3.5 hectares of **GODELLO grapes** vineyards for our white wine, **Val de Vannos (IGP Tierra de Castilla y Leon)** in Cubillas de Santa Marta (Valladolid).

Tradition and Technology
Our vintners are young professional winegrowers with a **family tradition of several generations**, who carry out, with their teams, the work on the vineyards with great pride, dedication, and care. Backed by our oenologist they carefully monitor the evolution of the vines and ensure that our grapes will be in the best conditions when the time of the harvest has come.

Vineyards

Having these **experienced teams**, allows us to optimize the quality of the grapes and make a careful grape selection in the vineyard. We carry out **artisanal** handpicked harvest for our old bush vines and use topnotch **technology** both, in the vineyards and in the winery.

EL HACEDOR
BODEGAS

Obtaining wines of the **best quality** is our motto, and that is why we need to have the best facilities for winemaking, maturing and aging of our wines.

Chema Velasco, our oenologist, makes our wines in **our new winery** of Quintanilla de Arriba (Valladolid) in the center of the “Golden Mile” of the Ribera del Duero.

Excellence

Chema has extensive **work experience, starting his career with Mariano Garcia** at the iconic Bodegas Mauro, and has made wines in the DOP Cigales, **DOP Ribera del Duero and the extreme climate area of DOP Valtiendas**, as well as, in other countries like France and Serbia.

EL HACEDOR
BODEGAS

This winery, made with the latest top-notch technology, will allow us to improve our production capacity and, above all, to mature and age the wines in optimal conditions in an innovative, efficient and completely sustainable facility. With these excellent means and resources, we make our wines, with the minimum possible intervention. Our wines age in **new and used oak barrels** from **the best French cooperages**, both **French oak (90%)** and **American (10%)**, to achieve the perfect blend of soft but intense fruity wines, with the precise mix of oak to be able to appreciate the quality of our grapes, resulting in round, balanced wines, that will age outstandingly in the bottle.

Excellence

We are proud to share with you our remarkable market landing in the world of wine as we have obtained, in all our wines, **significant awards and qualifications** in some of the most valuable worldwide contests.
