Harvest 2024

The campaign was completed with high temperatures, extreme drought, and some episodes of spring frosts in the area, which meant a significant reduction in the harvest. Even so, we harvested 5.500 kg. of “Godello” grapes that arrived with an ideal ripeness and a perfect state of health for its production.

Vinification:

Fermentation in stainless Steel tanks and maturing on its fine lees for 3 months.

Appearance:

Lemon color with a medium intensity, clean and bright.

On the nose:

We will find aromas of lemon, stone fruit like peach, and some tropical notes of pineapple and a slight mineral touch.

On the palate:

It’s a youthful wine with a medium body and balanced acidity, where stone fruit dominates the flavor aromas with a slight touch of bitter almonds on the finish. The wine is light and fresh.
